About Me

Experienced Software Architect, Engineering Leader, and Agile Practitioner with a passion for building scalable, high-performance systems. Skilled in microservices, cloud computing, DevOps, and technical strategy. Proven track record in team leadership, mentoring, and process optimization. Dedicated to driving innovation, efficiency, and business-aligned technology solutions.

Skills

- Software Architecture & Design

- Microservices & Distributed Systems

- Cloud Computing (Azure, AWS)

- DevOps & CI/CD

- Agile & Scrum Methodologies

- Team Leadership & Mentorship

- Enterprise Software Development

Experience

Technical Director
Rem People, Istanbul, Turkey Jun 2022-Apr 2024

- Architected Microservices & Cloud Solutions – Transformed legacy systems, optimized performance, and reduced cloud costs by 50%.
- Built & Scaled High-Performing Teams – Grew engineering teams from 13 to 40+, fostering agile culture and technical excellence.
- Defined Technical Strategy – Aligned technology with business goals, optimizing workflows and automation.
- Led Agile & QA Transformation – Established test automation and coached teams for continuous improvement.

Head Of Engineering
GönderAl, Istanbul, Turkey Mar 2020-Apr 2022

- Technical Leadership & Team Development – Managed and mentored senior engineers, driving technical excellence.
- Software Architecture & IT Strategy – Designed scalable systems and developed IT strategies for efficiency.
- DevOps & Infrastructure Optimization – Implemented DevOps practices and optimized test/production environments.
- Agile & Recruitment – Coached teams on agile methodologies and recruited top technical talent.

Software Engineer, Team Lead, Trainer
BilgeAdam Technology, Istanbul, Turkey Feb 2015-Mar 2020

- Software Consulting & Training – Provided expertise to companies and trained 700+ developers in 100+ sessions.
- Course Development & Education – Created 18+ courses and delivered corporate training.
- Project Management & Analysis – Led teams, conducted project planning, and tailored solutions to customer needs.
- Process Optimization – Implemented CI/CD and streamlined development workflows.

Head Of Software Development
Ulusal Yonetim, Istanbul, Turkey Jul 2014-May 2015

- Team & Agile Leadership – Guided a team of developers as Agile Coach and Scrum Master.
- DevOps & CI/CD Management – Implemented and maintained automation pipelines.
- Technical & Business Analysis – Conducted in-depth assessments for strategic decision-making.
- End-to-End Project Development – Built a logistics system from scratch.

Senior Software Developer
SmartMessage, Istanbul, Turkey Jul 2012-Jul 2014

- Application Development & Integration – Built solutions for leading e-marketing platforms with custom API integrations.
- Web & Enterprise Solutions – Developed responsive web apps and enterprise architectures using ASP.NET, MVC, and operator APIs.
- Performance Optimization & Bug Fixing – Enhanced system efficiency and resolved technical issues.
- Database & Deployment Management – Managed MS SQL, MySQL, Oracle, and conducted on-site deployments.

Software Developer
Edenred, Istanbul, Turkey May 2008-May 2012

CoFounder
Artech Digital, Kutahya, Turkey Jul 2005-May 2006

Education

Bachelor of Engineering
Kocaeli University 2001- 2005
